ADDITIONAL INFORMATION SUPPORTING NJD (e.g., paragraph 1 site conditions; paragraphs 2-3 rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 site information on waters of the U.S. occurring onsite):

A field visit of the site was conducted in addition to evaluation of U.S.G.S. quadrangle, aerial photographs, SURRGO soil data, and NWI maps. The wetland was created incidental to past construction activities. It has no outlet or connection to jurisdictional wetlands including the city stormwater system. The nature of the wetland precludes an interstate commerce nexus as it is a water filled depression essentially in a parking lot.
